Thank you for attending HCC's Second Annual Patriot Party! We are so happy you could join us to support the programs HCC offers to homeless veterans. The Housing Crisis Center has three programs specifically designed to serve chronically homeless and disabled veterans – individuals and families who have been homeless over a year and have a disabling condition like schizophrenia or bipolar disorder. HCC provides housing, case management, therapy, and other support services to meet the needs of the veteran clients. While a homeless person living on the streets can cost a city upwards of \$100,000 in taxpayer dollars annually, HCC can house that same person and provide comprehensive services for less than \$10,000 each year. At HCC, your donation goes further. For every dollar donated to HCC, \$0.86 is dedicated solely to direct client services.

making our community a better home for everyone
